

STONE POLISHER

The responsibilities of the job will be to 'finish' any of the worktops that are coming off the CNC production line, ready to be installed at our client's premises as well as be proficient on the CNC Saw machine.

Previous experience in the stone industry is a requirement. The bulk of the work will be with working on Quartz , Porcelain, Marble & Granite and ensuring that our exceptionally high standards are met.

The proficient use of a 'flex' dry & wet polishing machine is essential for this role as well as Bridge Saw and Edge Polisher.

A basic understanding of worktop CAD drawings is required as this will be the method that the work is delivered to you.

Requirements:

- Previous use of a CNC bridge saw & edge polishing machine.
- Previous use of 'flex' dry & wet polishing machine

The right candidate will be punctual, have a can-do attitude and be happy with working as part of a team to meet deadlines. Ability to communicate verbally in the English language is essential. Ability to follow all safety procedures and wear Personal Protective Equipment (i.e., Coveralls, face mask, eye glasses, wet gear etc).

Hours of work are 8.30 - 5.30, Monday – Friday
